Targeted Disparity – FAQ's

- What is it?
- How will the item be reviewed?
- Is there a way to double check the item for the required elements?
- Do you have examples?

What is the targeted disparity requirement?

- DD Councils must develop a goal or objective, with corresponding activities that identify a subpopulation that is vulnerable to disparities, identify a disparity, and ultimately identify and implement activities to reduce the targeted disparity during the course of the 5-year State plan implementation.
 - Note: The targeted disparity item must be addressed at some point during the 5 year plan cycle – there is no current requirement that it be addressed each year of the state plan

How will the targeted disparity item be reviewed?

- State plan peer reviewers will be looking for the following:
 - A clearly identified targeted disparity goal or objective that includes the following
 - Identifies a subpopulation within the DD population that is vulnerable to disparities;
 - Identifies the disparity to be addressed;
 - Identifies strategies to reduce the disparity;
 - A logical link between the targeted disparity item and the information in the Comprehensive Review and Analysis?
