

Notable Rapid Response Questions from September 2021

Funding

Is there a way Councils can see how much of the FY 2021 federal funds have been drawn to date?

Yes. You will collaborate with the person in your Designated State Agency (or other office) that has access to the Payment Management System and performs the drawdowns on your grant awards.

Council membership

Is there a minimum number of members a Council must have?

Yes. However, the minimum number depends on the number of UCEDD's, P&A's and extra agency representatives a Governor has appointed in addition to the required members.

We developed [guidance](#) on how to determine membership to help in meeting membership criteria. Pages 5-7 of the TA Brief has details on calculating membership numbers and required members.
